Creintors
Vertical Lift System

About Product

Vertical Lift : the pinnacle of storage efficiency. Our automatic vertical storage system offers unparalleled convenience for materials of any shape, weight, or size. With racks, metal containers, and a lift device, it optimizes space and streamlines picking.

Plus, its flexible configuration adapts to your storage needs, ensuring maximum efficiency without sacrificing accessibility. Revolutionize your storage

Key Features

- **Faster Access Time.**
- **Less time required for material movement.**
- **Easy material handling.**
- **Completely enclosed machine with Automatic door opening and closing**

Cautomate®
create › innovate › automate

Our Unique Key Features with provision for up-gradation..!!

- Software to maintain history of each transaction User-wise and Component-wise.
- Machin-human interface with instruction for better instruments, performance, traceability and accountability.
- Interface with Ethernet for connecting the machine with LAN (Industry 4.0 connect).
- Interface to ERP/SAP by exporting data to ERP/SAP accessible common platform.
- Material can be retrieved by scanning using BARCODE/RFID.
- The software provided not only identifies and helps us to retrieve and store needed item, also records history of all the transactions.
- Light barrier with sensing arrangement for safe hand operations.
- Overload detection system.
- Optimum storage assignment based on Automatic height sensing system.
- Tray-wise user access to control unauthorized access.
- Frequently used parts stored at shortest level.
- BOM feature - BOM list input to the system, to avoid multiple item entry to the system.
- Maximum Height 15 Mtrs.

Advantages

- Complete accountability and traceability
- Password protected data logging system security
- Creation of a space for storing the desired quantity
- Integration with software for easy and effective access
- Improve Inventory management & control
- Time saving-Reduce time spent for searching & bringing it to the process point.
- Allows fast and accurate access
- Safe handling system
- Storage flexibility - By adding/removing the trays
